UPGRADE YOUR I-TRACK I SYSTEM

Take the opportunity to upgrade your I-track I system to the light-weight and easy-to-use I-track II.

With I-track II you will benefit from small, ergonomic measuring heads, ADAS calibration capabilities* and a completely new software user interface. The premium kit also comes with magnetic wheel adapters, quick to attach and gentle to aluminium rims.

Trade-in discount
During 2022 a trade-in discount is granted when you upgrade and return your I-track I measuring heads. Contact your nearest Josam representative for more information on this upgrade offer or to receive a demonstration of the I-track II system.

The trade-in discount offer is valid within region Europe/Middle East/ Africa until the end of 2022.

* Additional tools required for ADAS calibration
